Medical Valley EMN e. V.
We accelerate time-to-market for healthcare innovations

The Medical Valley EMN Association is an internationally leading innovation eco system in the area of healthcare management and was announced cluster of excellence in 2010 and Digital Health Hub in 2017. Our One-Stop-Shop-Concept allows fast and easy interaction with all relevant actors such as researchers, healthcare providers, industry, start-ups, politicians, citizens.

What we do:

- We accelerate time-to-market for healthcare innovations.

- We drive transdiciplinary cooperations of all relevant stakeholders in order to improve the capabilities to innovate in healthcare.

- We create a stimulating atmosphere for the development of best-in-class products, health services and business models.

- We attract innovative people and companies from all over the world to start creating medical value here, in Medical Valley.

- We develop Medical Valley to an internationally visible model region for optimal healthcare delivery.
