GTAI receives UN award for green investment promotion

Berlin (gtai) - Germany Trade & Invest (GTAI) received a top accolade for excellence in the web-based promotion of green foreign direct investment at the United Nations Conference on Trade and Development (UNCTAD) Investment Promotion Awards on Monday.

GTAI is the foreign trade and inward investment promotion agency of Germany. UNCTAD praised the organization's large and well-documented coverage of green sectors on its website, as well as the presentation of success stories and industry-specific information on green investment facilitation.

Thomas Grigoleit, head of energy, environment, and resources at GTAI: "Germany's drive towards creating a strong and environmentally sustainable economy has created optimal conditions for international companies to make green investments in the country. Our team works hard to spread this message around the world and this award is a fantastic endorsement."
