

The Energy Storage Market in Germany

Issue 2019

Jan 18, 2019

Due to Germany's ambitious energy transition project, *Energiewende*, the German energy storage market has experienced a massive boost in recent years. As a front-runner in renewable energy development, Germany will become the lead market in the energy transition age in the years ahead. The country actively welcomes international enterprises seeking to participate in the changing energy market landscape. Read more about the opportunities for companies to develop, test, define, and market new energy storage solutions in Germany.

Subjects : Energy Storage & Fuel Cell Industry
