HEALTH MADE IN GERMANY: Setting global standards

Germany's health-related industry is among the world's leading providers and exporters of healthcare products and services. The country's medical solutions often set international standards for quality, safety and reliability. The team at HEALTH MADE IN GERMANY supports international companies and providers in establishing contact with potential partners and suppliers in Germany. We provide networking platforms in Germany as well as abroad and offer information on Germany's healthcare market.

30 Biotechnology clusters bundle scientific expertise at a regional level and connect academic and industrial players in the field of drug development.

67.9% Company turnover by medical technologies reached EUR 41.4 billion in 2025 – of which 68 percent originated from export markets.

EUR **538** billion

Germany is Europe's biggest healthcare market – with healthcare spending continuing to grow.

EUR **10.5** billion

R&D investments by pharma companies in Germany in 2025 – more than in any other European country.

1,479

Medical technology patent applications received by the European Patent Agency from Germany in 2025.

83 million insured Germans

Germany's Digital Care Act (DVG) paves the way to broad usage and reimbursement of digital health applications – providing access to digital health applications on prescription.

Our support for your business

We publish **market reports, in-depth market studies** and **company directories** of the German healthcare industry and its different sectors.

Our **calendar** is regularly updated with the latest industry events in Germany and overseas.

We provide free access to 3,800+ German healthcare companies through our **online database**. Detailed company profiles and direct contact information help international businesses to identify potential suppliers and partners in Germany.

We take part in **leading healthcare trade fairs** across the world, organize networking events and foster ongoing dialogue and exchange with international health policy-makers.

Visit **www.health-made-in-germany.com** for more information about the German healthcare industry and all HEALTH MADE IN GERMANY activities.

Our services cover four major industries active in the international medical market: pharmaceuticals, medical technology, medical biotechnology, and digital healthcare. Contact us for more information on how to get into contact with potential partners and suplliers in Germany.

Who we are

HEALTH MADE IN GERMANY is the export initiative for the German healthcare industry. We support international companies and organizations that are interested in establishing contact with potential German partners and suppliers. Set up by the German Federal Ministry for Economic Affairs and Energy (BMWE), the initiative bundles expert market intelligence for easy industry access. One of our main goals is to promote the German healthcare sector through international networking for the mutual benefit of international partners and German companies alike.

HEALTH MADE IN GERMANY works closely with major German industry associations and is part of the BMWE's MITTELSTAND GLOBAL umbrella initiative for small and medium-sized enterprises.

The HEALTH MADE IN GERMANY initiative is implemented by Germany Trade & Invest, the economic development agency of the Federal Republic of Germany, on behalf of the BMWE.
