Join Germany Trade & Invest (GTAI) for an evening of insights, networking and growth opportunities. Discover why Germany is a leading destination for advanced manufacturing, robotics and technology in Europe and learn how GTAI helps international companies establish and expand their presence in Germany.

The program will feature analysis from industry experts, as well as the first-hand experience of a Canadian company that has successfully expanded to Germany. We will discuss market entry strategies and look at industry numbers, information on tax, legal and funding frameworks, and location selection in Germany. As a publicly funded agency, all services are provided at no cost.

Please let us know if you want to connect with fellow executives and explore new opportunities in Germany over drinks at our networking reception. More information on the agenda will follow soon.
