Our Entry into Germany & EU so far

Pre CE approval

- Identification of key hospital - [Weisse Liste database](#)
- Engagement with KoLs
- Market Analysis – financials, care pathways, PICO
- Engagement with GTAI
- Safety and efficacy trial data
- CE Marking application under MDD with TUV

Our Entry into Germany & EU so far

Post CE approval

- Feasibility study publication in [British Journal of Surgery](#)
- Pivotal Trial design & onboarding German sites
- Engaged with reimbursement consultants [AiM](#)
- [NUB](#) innovation payment submissions.

Looking forward

How will we engage with Germany?

- Execute our multi-centre RCT and establish a registry
- Pursue Reimbursement codes for inpatient and outpatient setting forming a plan and timeline to help adjust company expectations.
- Find a distributor
- Country manager
